

MOIZ KHAN

Full Stack Web Developer

moizkh369@gmail.com | 03335016753 | H9, Islamabad, Pakistan

PROFESSIONAL SUMMARY

Passionate Full Stack Web Developer and Software Engineer dedicated to building robust, end-to-end web applications. A natural leader and collaborative team player with a proven track record of guiding technical projects to success. Highly detail-oriented and committed to delivering flawless, high-quality solutions from conception to deployment. Driven by a vision to leverage advanced technologies to build scalable, revolutionary products that create a positive global impact.

TECHNICAL EXPERIENCE

Automated Dermatology Assistant (FYP)

Mar 2025 – May 2026

- Built an AI-integrated healthcare web app capable of detecting 2 major skin conditions with an 85%+ accuracy rate.
- Optimized the AI prediction pipeline to deliver rapid diagnostic screening results with a 2-second prediction time.
- Designed a patient dashboard to track skin health progress and implemented location-based services to seamlessly match users with nearby dermatologists and book appointments.
- Technologies:** Django, SQL, Python, AI Integration.

Jewellery Store Management System

Nov 2025 – Dec 2025

- Architected a full-stack e-commerce inventory portal for administrators, successfully handling an active inventory of 500+ products.
- Developed a responsive frontend and robust RESTful API for rapid database querying, smooth pricing administration, and catalog management.
- Technologies:** MongoDB, Express.js, React, Node.js (MERN Stack).

Arts and Crafts eCommerce Platform

Oct 2024 – Nov 2024

- Built a niche e-commerce platform dedicated to arts and crafts, featuring a highly scalable backend designed to concurrently support 1000+ users.
- Implemented secure user authentication, input validation, and real-time database integrations for processing online orders.
- Technologies:** HTML, CSS, JavaScript, PHP, SQL.

Car Parking Management System

Oct 2022 – Nov 2022

- Developed centralized administrative software for real-time parking tracking and automated billing, scaling to track 5000+ vehicles.
- Digitized the entire manual entry system, improving overall workflow efficiency by 100% and reducing logging errors.
- Migrated the core C++ console logic to a Java-based GUI to enhance user accessibility and operational workflow.
- Technologies:** Java, C++, GUI Design, OOP.

EDUCATION

National University of Modern Languages

Bachelor of Science in Software Engineering

GPA: 3.9/4.0

Islamabad, Pakistan

Sep 2022 – Present

SKILLS

Python, Java, C++, JavaScript, HTML, CSS, React, Node.js, Django, Express.js, AJAX, SQL, GitHub, Visual Studio, Android Studio, WordPress, Leadership, Team Collaboration, Problem Solving, Project Management, Detail-Oriented.
